FPIC: 41st ANNUAL CONFERENCE

September 21-23, 2016

This conference presents state of the art infection prevention practice and disease control information.

Conference Objectives

At the conclusion of the conference, the participant will be able to:

- ◆ Discuss the integration of public health and population health; what this means for infection prevention.
- ◆ Identify solutions to the challenges posed by infection control in our pediatric population.
- ◆ Identify new legislative initiatives and mandatory reporting requirements from CMS.
- ◆ Evaluate compliance of healthcare pharmacies with infection prevention standards USP 797 & 800.
- ◆ Name at least two risks that occur during hospital construction and/or renovation

Special Information

Target Audience

This program is designed for Infection Prevention professionals in all health care settings, including Infection Prevention Committee Chairpersons, Hospital Epidemiologists, Physicians, Employee Health Nurses, Emergency Response Professionals, Physician's office employees, Microbiologists, Home Health personnel, Long Term Care staff, Non-Acute Care staff, Public Health personnel, Ambulatory Care personnel and other Health Care providers.
